Syntax ETF Trust (Unaudited)

Dear Shareholder,

Enclosed is the report for the Syntax ETF Trust ("Syntax") for the period ending December 31, 2023, together with Management's Discussion and Analysis for the Syntax Stratified LargeCap ETF ("SSPY"), the Syntax Stratified MidCap ETF ("SMDY"), the Syntax Stratified SmallCap ETF ("SSLY"), the Syntax Stratified U.S. Total Market ETF ("SYUS"), the Syntax Stratified U.S. Total Market Hedged ETF ("SHUS"), and the Syntax Stratified Total Market II ("SYII"). Also included is information about the respective indices for SSPY, SMDY, and SSLY - the Syntax Stratified LargeCap Index, the Syntax Stratified MidCap Index, and the Syntax Stratified SmallCap Index.

Syntax offers investors investment products that track Stratified Weight versions of major market indices. Stratification is a patented method of index construction whose goal is to provide diversification across business risks¹. The stratification process determines the common economic and business risks companies face and equally divides stocks within carefully defined segments defined by those common risks. In contrast to both capitalization-weighted and equal-weighted indices, stratification uses economic factors as its weighting determinant. We believe that this gives stratification a long-term advantage compared to more traditional weighting methods.

The rising domestic equity markets in 2023 were a mirror image of the falling markets in 2022. Concerns around tech valuations and rising interest rates drove the market down in 2022, only to see the buzz surrounding AI and the prospective of falling rates drive markets forward in 2023. The diversified business risk profile of the Syntax Stratified LargeCap strategy provided a positive performance differential on the downside in 2022, whereas the cap weighted S&P 500 benefited from its overconcentration in tech and information sectors in 2023. For the year, the Syntax Stratified LargeCap ETF underperformed the S&P 500 Index by 12.62% and underperformed the S&P 500 Equal Weight Index by 0.20%.

The relative outperformance of the S&P 500 versus SSPY for the year was driven by the performance and overweighting of the Information and Information Tools sectors. As of December 31, 2023, these two sectors comprised over 47% of the S&P 500 Index whereas they were under 25% weight in SSPY. More specifically, within these two sectors, the S&P 500's performance was driven by the group of companies that have become to be known as the Magnificent Seven: Apple, Microsoft, Meta Platforms, NVIDIA, Amazon, Alphabet and Tesla. These seven stocks accounted for approximately 64% of the return of the S&P 500 Index and represented approximately 28% weight in the S&P 500 index as of December 31, 2023. In contrast, because SSPY's Stratified Weight seeks to diversify across sectors and sub-sectors and avoid overconcentration risk, these 7 companies only represented 2.29% of the SSPY's weight and were significantly smaller drivers of SSPY's performance for the year.

The Syntax Stratified MidCap (SMDY) and Syntax Stratified SmallCap ETFs (SSLY) were also affected by the rising market. For the year ending December 31, 2023, the Syntax Stratified MidCap ETF rose 17.30% on a market price basis and 17.29% on a net asset value ("NAV") basis, versus the S&P 400 MidCap Index that returned 16.44%. For the year ending December 31, 2023, SSLY returned 11.54% on a market price basis and 11.57% on a net asset value ("NAV") basis, compared to the S&P SmallCap 600 Index that returned 16.05%.

The Syntax Stratified U.S. Total Market ETF (SYUS) returned 13.89% on a market price basis and 13.89% on a net asset value ("NAV") basis, versus the S&P 1500 Composite Index that returned 25.47%. During 2023, SYUS's largest holding was SSPY, with a target weight of approximately 85% in the portfolio, which helped drive underperformance for the year.

The Syntax Stratified Total Market II ETF (SYII) returned 13.85% on a market price basis and 13.89% on a net asset value ("NAV") basis, versus the S&P 1500 Composite Index that returned 25.47%. During 2023, SYII's largest holding was SSPY, with a target weight of approximately 85% in the portfolio, which helped drive underperformance for the year.

¹Business risks are risks related to the nature of a company's business: what it does, who its customers are, what supplies it utilizes, and other such attributes.

The Syntax Stratified U.S. Total Market Hedged ETF (SHUS) returned 5.81% on a market price basis and 6.14% on a net asset value ("NAV") basis. SHUS underperformed against the unhedged S&P Composite 1500 Index, which returned 25.47% for the year ending December 31, 2023. For the year, SHUS's underperformance was driven by both the equity allocation and the hedge: SHUS's target equity allocation is 85% to SSPY, and the hedge saw negative performance for the year, both contributing to the performance differential versus the S&P Composite 1500 Index.

Overall, while 2023 was a challenging year for the Stratified Weight methodology versus the cap-weighting methodology, we continue to believe that the power of business risk diversification. As we have consistently highlighted in our research, market cap-weighted indices often become overexposed to groups of companies with common business risks, such as the current concentration in technology stocks and the Magnificent Seven within the US large-cap space. The goal of the Stratified Weight methodology is to deliver an unbiased return that is representative of all the business opportunities in the market, not just the largest ones. The goal is to prevent one sector, industry, or sub-sector from becoming concentrated in the portfolio.

As we move into 2024, challenges and uncertainty remain, with increasing concerns about geopolitical risks, inflation, a cooling labor market, and the impact of higher interest rates on the markets. During periods of uncertainty and volatility, it has historically been prudent to have diversified portfolios. Syntax believes that diversifying across business risks using the Stratified Weight approach offers investors a unique solution to diversification in equity portfolios, and we believe that the Stratified Weight methodology remains well-positioned in the face of the uncertainties and challenges that are constant features of the markets.

Syntax Stratified LargeCap ETF (SSPY) Manager's Note (Unaudited)

The Syntax Stratified LargeCap ETF (the "Fund") seeks to track the returns (before fees and expenses) of its underlying index – the Syntax Stratified LargeCap Index (the "Index"). The Index reweights the constituents of the S&P 500® to address the related business risk concentrations that occur in capitalization-weighted and equal-weighted indices. Its goal is to deliver an unbiased return that is representative of all the business opportunities represented by the index constituents.

When compared to capitalization-weighted and equal weighted strategies, the Stratified approach may provide the following potential advantages:

- Reduce the negative impact of a significant correction in an overweight sector.
- Increase the chance of participating in all sectors during a market rally.
- Capture a fuller range of market opportunities.

In accordance with its guidelines and procedures, Syntax, LLC ("Syntax" or the "Index Provider") has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Index, which is a Stratified WeightTM version of the S&P 500 Index. Unlike the S&P 500 Index, which employs a market capitalization weighted methodology, the Index utilizes a patented investment technology to diversify the same constituents and use the same rebalancing schedule as the S&P 500, the primary difference is the weighting scheme applied. The Fund generally invests in all of the securities comprising the Index in proportion to their weightings in the Index.

For the year ended December 31, 2023, on a market price basis, the Fund returned 13.71%. On a net asset value ("NAV") basis, the Fund returned 13.67%. During the same time period, the Index returned 14.05%. During the year, the Fund aimed to fully replicate the components of the Index; therefore, the Fund's performance, on a NAV basis, differed from the return of the Index primarily due to fees and operating expenses that the Fund incurred during the period.

During this same time period, the S&P 500 Index returned 26.29% and the S&P 500 Equal Weight Index returned 13.87%. The S&P 500 is an unmanaged index weighted by market capitalization based on the average performance of approximately 503 equity securities. The S&P Equal Weight 500 is an unmanaged index and is the equal-weight version of the S&P 500 Index. It includes the same companies as the S&P 500 Index, but each company is allocated an equal fixed weight of the index at each quarterly rebalance.

The S&P 500 Index and the S&P 500 Equal Weight Index were selected as performance comparators for their recognition in the marketplace. Their performance comparison is a useful measure for investors as a broad representation of the U.S. equity market using two different weighting methodologies: capitalization weighting and equal weighting. Both indices also use the same underlying universe as the Index. The performance of the Fund differed from the S&P 500 Index and the S&P 500 Equal Weight Index in part because the Fund employs a Stratified Weight methodology.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. The Growth of \$10,000 chart represents a hypothetical investment based upon the historical performance of the Fund. It includes the reinvestment of dividends and capital gains at net asset value: actual returns may differ. Performance reflects contractual reimbursements in effect until May 1, 2024. In the absence of such reimbursements, performance would be reduced. The gross and net expense ratios of the Fund are 0.45% and 0.30%, respectively. Indexes are unmanaged and do not incur fees, expenses, and other costs. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown here. Please see important disclosures relating to Portability of Performance on page 18. A privately offered fund managed by Syntax Advisors, LLC was reorganized into the Syntax Stratified Largecap ETF ("the Fund") as of January 2, 2019 upon commencement of the ETF operations. For periods prior to the commencement of ETF operations, the Fund's performance is that of the private fund. The Fund's NAV price as of January 2, 2019 was used in calculating market price performance for January 2 and January 3, prior to the fund first trading on the New York Stock Exchange on January 4, 2019. The Fund is subject to certain risks, including but not limited to, equity securities risk, large-capitalization risk, index tracking risk, passive strategy/index risk and market trading risk. Investing involves risk, including possible loss of principal.

Performance data current to the most recent month end is available by calling (866) 972-4492.

Syntax Stratified MidCap ETF (SMDY) Manager's Note (Unaudited)

The Syntax Stratified MidCap ETF (the "Fund") seeks to track the returns (before fees and expenses) of its underlying index – the Syntax Stratified MidCap Index (the "Index"). The Index reweights the constituents of the S&P 400® to address the related business risk concentrations that occur in capitalization-weighted and equal-weighted indices. Its goal is to deliver an unbiased return that is representative of all the business opportunities represented by the constituents of the Index.

When compared to capitalization-weighted and equal weighted strategies, the Stratified approach may provide the following potential advantages:

- Reduce the negative impact of a significant correction in an overweight sector.
- Increase the chance of participating in all sectors during a market rally.
- Capture a fuller range of market opportunities.

In accordance with its guidelines and procedures, Syntax, LLC ("Syntax" or the "Index Provider") has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Index, which is a Stratified WeightTM version of the S&P 400 Index. Unlike the S&P 400 Index, which employs a market capitalization weighted methodology, the Index utilizes a patented investment technology to diversify the same constituents and use the same rebalancing schedule as the S&P 400, the primary difference is the weighting scheme applied. The Fund generally invests in all of the securities comprising the Index in proportion to their weightings in the Index.

For the year ended December 31, 2023, on a market price basis, the Fund returned 17.30%. On a net asset value ("NAV") basis, the Fund returned 17.29%. During the same time period, the Index returned 17.81%. During the year, the Fund aimed to fully replicate the components of the Index; therefore, the Fund's performance, on a NAV basis, differed from the return of the Index primarily due to fees and operating expenses that the Fund incurred during the period.

During this same time period, the S&P 400 Index returned 16.44% and the S&P 400 Equal Weight Index returned 17.72%. The S&P 400 is an unmanaged index weighted by market capitalization based on the average performance of approximately 401 equity securities. The S&P Equal Weight 400 is an unmanaged index and is the equal-weight version of the S&P 400 Index. It includes the same companies as the S&P 400 Index, but each company is allocated an equal fixed weight of the index at each quarterly rebalance.

The S&P 400 Index and the S&P 400 Equal Weight Index were selected as performance comparators for their recognition in the marketplace. Syntax Stratified U.S. Total Market ETF (SYUS) Manager's Note (Unaudited)

The Syntax Stratified U.S. Total Market ETF (the "Fund") seeks to obtain capital growth that meets or exceeds the performance of the S&P Composite 1500 Index (the "Index") by investing in exchange traded funds or underlying securities that provide Stratified Weight U.S. total equity market exposure.

When compared to capitalization-weighted and equal weighted strategies, the Stratified approach may provide the following potential advantages:

- Reduce the negative impact of a significant correction in an overweight sector.
- Increase the chance of participating in all sectors during a market rally.

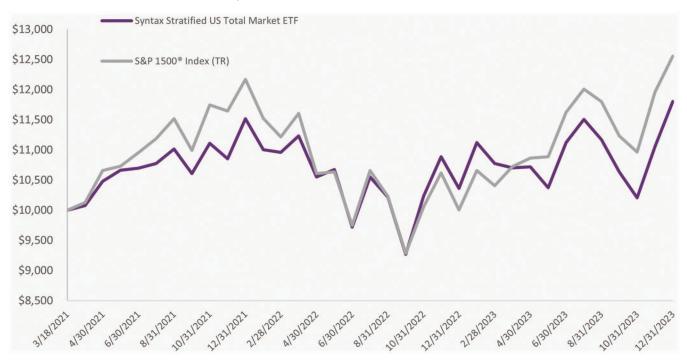

- Capture a fuller range of market opportunities.

For the year ended December 31, 2023, on a market price basis, the Fund returned 13.89%. On a net asset value ("NAV") basis, the Fund returned 13.89%. During the same time period, the S&P Composite 1500 Index returned 25.47%. The S&P Composite 1500 Index is an unmanaged index that combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600®, which together comprises approximately 90% of U.S. market capitalization.

Throughout 2023, the target allocation for SSPY, SMDY, and SSLY in the Fund's equity portfolio was approximately 85%, 10%, and 5% respectively.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. The Growth of \$10,000 chart represents a hypothetical investment based upon the historical performance of the Fund. It includes the reinvestment of dividends and capital gains at net asset value: actual returns may differ. Performance reflects contractual reimbursements in effect until May 1, 2024. In the absence of such reimbursements, performance would be reduced. The gross and net expense ratios of the Fund are 1.07% and 0.35%, respectively. Indexes are unmanaged and do not incur fees, expenses, and other costs. Investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than that shown here. Please see important disclosures below. The Fund is subject to certain other risks, including but not limited to, equity securities risk, large-, mid-, and small-capitalization risk, index tracking risk, passive strategy/index risk, the risks of the underlying ETFs in which it invests, and market trading risk. Investing involves risk, including possible loss of principal.

Performance data current to the most recent month end is available by calling (866) 972-4492.

Syntax Stratified U.S. Total Market Hedged ETF (SHUS) Manager's Note (Unaudited)

The Syntax Stratified U.S. Total Market Hedged ETF (the "Fund") seeks to obtain capital growth that meets or exceeds the performance of the S&P Composite 1500 Index (the "Index") over a full market cycle by investing in exchange traded funds or underlying securities that provide Stratified Weight U.S. total equity market exposure. Using the Stratified Defined Risk Strategy, the fund combines Syntax's Stratified Weight Methodology with the Defined Risk Strategy of Swan Global Investments, LLC.

As part of the Defined Risk Strategy, the Fund seeks to reduce market risk by buying S&P 500 Index put options¹ to limit overall portfolio downside loss. In an effort to generate additional returns, the Fund also buys and sells options on equity indices including different expiration dates and engage in various option spread strategies. Each option strategy includes a hedging element so that the Fund is not exposed to significant losses on written options.

For the year ended December 31, 2023, on a market price basis, the Fund returned 5.81%. On a net asset value ("NAV") basis, the Fund returned 6.14%. During the same

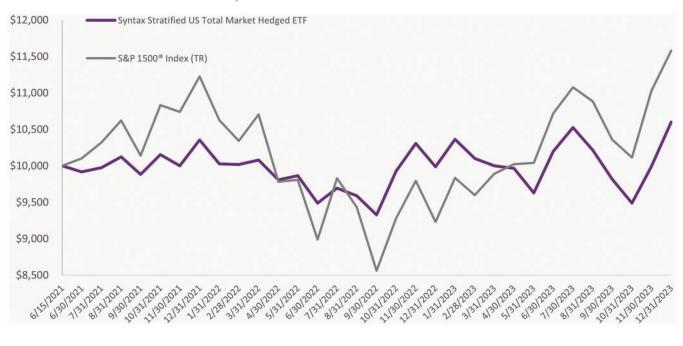

time period, the Index returned 25.47%. The S&P 1500 Composite Index is an unmanaged index that combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600®, to cover approximately 90% of U.S. market capitalization.

The Fund has two components that impact its performance: the equity component and the options component. For 2023, the equity allocation in the Fund consisted of SSPY, SMDY, and SSLY, with target weights of 85%, 10%, and 5% of the equity position respectively. For the majority of the year, the options component of the Fund consisted of put and call options on the S&P 500 Index. The reason for SHUS to invest in options is two-fold: first, for downside mitigation and reduction of volatility and overall risk, and second, to generate supplemental returns to potentially offset some of the hedging costs.

¹ A put option (or "put") is a contract giving the option buyer the right, but not the obligation, to sell—or sell short—a specified amount of an underlying security at a predetermined price within a specified time frame.

Syntax Stratified U.S. Total Market Hedged ETF (SHUS) Manager's Note (Unaudited)

Syntax Stratified Total Market II ETF (SYII) Manager's Note (Unaudited)

The Syntax Stratified Total Market II ETF (the "Fund") seeks to obtain capital growth that exceeds the performance of the S&P Composite 1500® Index (the "1500 Index") over a full market cycle by investing in exchange-traded funds or underlying securities that provide Stratified WeightTM U.S. total equity market exposure to companies in the 1500 Index.

When compared to capitalization-weighted and equal weighted strategies, the Stratified approach may provide the following potential advantages:

- Reduce the negative impact of a significant correction in an overweight sector.
- Increase the chance of participating in all sectors during a market rally.

- Capture a fuller range of market opportunities.

For the year ended December 31, 2023, on a market price basis, the Fund returned 13.85%. On a net asset value ("NAV") basis, the Fund returned 13.89%. During this same time period, the S&P Composite 1500 Index returned 25.47%. The S&P Composite 1500 Index is an unmanaged index that combines three leading indices, the S&P 500®, the S&P MidCap 400®, and the S&P SmallCap 600®, which together comprises approximately 90% of U.S. market capitalization.

Throughout 2023, the target allocation for SSPY, SMDY, and SSLY in the Fund's equity portfolio was approximately 85%, 10%, and 5% respectively.

Syntax ETF Trust Manager's Note (Unaudited)

Shares are bought and sold at market price (not NAV) and are not individually redeemed from a Fund. Investors may purchase or sell individual shares on an exchange on which they are listed. Market returns are based upon the midpoint of the bid/ask spread at 4:00 p.m. Eastern time (when NAV is normally determined for most ETFs), and do not represent the returns you would receive if you traded shares at other times. Please see the prospectus for more details.

Portability of Performance: A privately offered fund managed by Syntax Advisors, LLC was reorganized into the Syntax Stratified LargeCap ETF ("the Fund") as of January 2, 2019 upon commencement of the ETF operations. For periods prior to the commencement of ETF operations, the Fund's performance is that of the private fund. The returns were calculated using the methodology the SEC requires of registered funds. However, since the private fund did not calculate its returns on a per share basis, its returns have been calculated on its total net asset value. While the performance of the private fund is net of all fees and expenses, the performance of the private fund has not been restated to reflect the management and fee waivers applicable to the Fund. The Fund may be subject to higher fees which would negatively impact performance. The private fund began operations on January 1, 2015 and, on January 2, 2019, was reorganized into the Fund. Prior to the reorganization, the private fund had investment objectives, policies and strategies that were, in all material respects, the same as those of the Fund, and was managed in a manner that, in all material respects, complied with the investment guidelines and restrictions of the Fund. However, as a registered investment company, the Fund is subject to certain restrictions under the Investment Company Act of 1940 (the "1940 Act") and the Internal Revenue Code of 1986 (the "Internal Revenue Code") which did not apply to the private fund. If the private fund had been subject to the provisions of the 1940 Act and the Internal Revenue Code, its performance could have been adversely affected. However, these restrictions are not expected to have a material effect on the Fund's investment performance.

Portability of Performance: A privately offered fund managed by Syntax Advisors, LLC was reorganized into the Syntax Stratified MidCap ETF ("the Fund") as of January 16, 2020 upon commencement of the ETF operations. For periods prior to the commencement of ETF operations, the Fund's performance is that of the private fund. The returns were calculated using the methodology the SEC requires of registered funds. However, since the private fund did not calculate its returns on a per share basis, its returns have been calculated on its total net asset value. While the performance of the private fund is net of all fees and expenses, the performance of the private fund has not been restated to reflect the management and fee waivers applicable to the Fund. The Fund may be subject to higher fees which would negatively impact performance. The private fund began operations on January 1, 2015 and, on January 16, 2020, was reorganized into the Fund. Prior to the reorganization, the private fund had investment objectives, policies and strategies that were, in all material respects, the same as those of the Fund, and was managed in a manner that, in all material respects, complied with the investment guidelines and restrictions of the Fund. However, as a registered investment company, the Fund is subject to certain restrictions under the Investment Company Act of 1940 (the "1940 Act") and the Internal Revenue Code of 1986 (the "Internal Revenue Code") which did not apply to the private fund. If the private fund had been subject to the provisions of the 1940 Act and the Internal Revenue Code, its performance could have been adversely affected. However, these restrictions are not expected to have a material effect on the Fund's investment performance.

The Syntax Stratified LargeCap Index, Syntax Stratified MidCap Index, and Syntax Stratified SmallCap IndexTM ("the Indices") are the property of Syntax, LLC, which has contracted with S&P Opco, LLC (a subsidiary of S&P Dow Jones Indices LLC) to calculate and maintain the Indices. The Indices are not sponsored by S&P Dow Jones Indices or its affiliates or its third-party licensors (collectively, "S&P Dow Jones Indices"). S&P Dow Jones Indices will not be liable for any errors or omissions in calculating the Index. "Calculated by S&P Dow Jones Indices" and the related stylized mark(s) are service marks of S&P Dow Jones Indices and have been licensed for use by Syntax, LLC, the parent company of Syntax Advisors, LLC. S&P® is a registered trademark of Standard & Poor's Financial Services LLC ("SPFS"), and Dow Jones® is a registered trademark of Dow Jones Trademark Holdings LLC ("Dow Jones").

The Syntax Stratified Large Cap Index, Syntax Stratified MidCap Index, and Syntax Stratified SmallCap Index $^{\text{TM}}$ are the property of Syntax, LLC, the Funds' index provider. This report is submitted for the general information of the shareholders of the Funds. It is not authorized for distribution to prospective investors unless preceded or accompanied by an effective prospectus, which includes information regarding the Funds' risks, objectives, fees and expenses, experience of its management, and other information.

This report is only intended for the recipient it is addressed and delivered to by Syntax Advisors, LLC and may not be redistributed without prior written consent. The report is provided for informational purposes and is not intended to be, nor should it be construed or used as an offer to sell, or a solicitation of any offer to buy shares or limited partnership interests in any funds managed by Syntax Advisors, LLC. These securities shall not be offered or sold in any jurisdiction in which such offer, solicitation or sale would be unlawful until the requirements of the laws of such jurisdiction have been satisfied. If any offer is made, it shall be pursuant to the offering documents prepared by or on behalf of a specific fund which contains detailed information concerning the investment terms and the risks, fees and expenses associated with an investment in that fund. In the case of any inconsistency between the descriptions or terms in this document and the offering documents, the offering documents shall control.

Index performance does not represent actual fund or portfolio performance and such performance does not reflect the actual investment experience of any investor. An investor cannot invest directly in an index. In addition, the results actual investors might have achieved would have differed from those shown because of differences in the timing, amounts of their investments, and fees and expenses associated with an investment in a portfolio invested in accordance with an index. None of the Syntax Indices or the benchmark indices portrayed herein charge management fees or incur brokerage expenses, and no such fees or expenses were deducted from the performance shown; provided, however, that the returns of any investment portfolio invested in accordance with such indices would be net of such fees and expenses. Additionally, none of these indices lend securities, and no revenues from securities lending were added to the performance shown. Foreside Fund Services, LLC is the distributor of the Syntax ETF Trust, and not affiliated with Syntax Advisors, LLC.

Portfolio turnover rate(h)	23%	31%	25%	36%	34%(e)

⁽a) Fund commenced operations on January 2, 2019.

⁽b) Per Share numbers have been calculated using the average shares method.

⁽c) Total return is calculated assuming a purchase of Shares at net asset value per Share on the first day and a sale at net asset value per Share on the last day of each period reported. Distributions are assumed, for the purposes of this calculation, to be reinvested at the net asset value per Share on the respective payment dates of the Fund. Total return for a period of less than one year is not annualized. Broker commission charges are not included in this calculation. Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. Performance would have been lower had the waivers/reimbursements not been in effect.

⁽d) If the Sub-Adviser had not made a special reimbursement during the period ended December 31, 2022, the total return would have been (9.13)%. See Note 6.

⁽e) Not annualized.

⁽f) Annualized.

⁽g) Net of expenses waived/reimbursed by the Advisor.

⁽h) Portfolio turnover rate excludes securities received or delivered from in-kind processing of creations or redemptions of Shares.

⁽a) Fund commenced operations on May 28, 2020.

⁽b) Per Share numbers have been calculated using the average shares method.

⁽c) Total return is calculated assuming a purchase of Shares at net asset value per Share on the first day and a sale at net asset value per Share on the last day of each period reported. Distributions are assumed, for the purposes of this calculation, to be reinvested at the net asset value per Share on the respective payment dates of the Fund. Total return for a period of less than one year is not annualized. Broker commission charges are not included in this calculation. Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. Performance would have been lower had the waivers/reimbursements not been in effect.

⁽d) If the Sub-Adviser had not made a special reimbursement during the period ended December 31, 2022, the total return would have been (18.68)%. See Note 6.

⁽e) Not annualized.

⁽f) Annualized.

⁽g) Net of expenses waived/reimbursed by the Advisor.

⁽h) Portfolio turnover rate excludes securities received or delivered from in-kind processing of creations or redemptions of Shares.

⁽a) Fund commenced operations on June 15, 2021.

⁽b) Per Share numbers have been calculated using the average shares method.

⁽c) As required by SEC standard per share data calculation methodology, this represents a balancing figure derived from the other amounts in the financial highlights table that captures all other changes affecting net asset value per share. This per share gain or loss amount does not correlate to the aggregate of the net realized and unrealized gain or loss in the Statements of Operations for the year ended December 31, 2021, primarily due to the timing of sales and repurchases of the Fund's shares in relation to fluctuating market values of the Fund's portfolio.

⁽d) Total return is calculated assuming a purchase of Shares at net asset value per Share on the first day and a sale at net asset value per Share on the last day of each period reported. Distributions are assumed, for the purposes of this calculation, to be reinvested at the net asset value per Share on the respective payment dates of the Fund. Total return for a period of less than one year is not annualized. Broker commission charges are not included in this calculation. Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares. Performance would have been lower had the waivers/reimbursements not been in effect.

Note 1 — Organization

Syntax ETF Trust (the "Trust"), was organized under the laws of the State of Delaware as a statutory trust on June 27, 2013 pursuant to an Agreement and Declaration of Trust (the "Trust Deed"). Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF, Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF (each a "Fund", and collectively, the "Funds"), are each a series of the Trust.

Each Fund is registered under the U.S. Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end, diversified management investment company. The Funds have no fixed termination date and will continue unless a Fund is otherwise terminated under the terms of the Trust or unless and until required by law. Syntax Advisors, LLC (the "Advisor" or "Syntax Advisors"), a New York limited liability company, serves as the Funds' investment adviser.

Investment Objectives:

The following Funds seek to provide investment results that, before expenses, correspond generally to the total return performance of publicly traded equity securities of companies comprising the respective index listed below (each, an "Underlying Index"):

<u>Fund</u>	Underlying Index
Syntax Stratified LargeCap ETF	. Syntax Stratified LargeCap Index
Syntax Stratified MidCap ETF	. Syntax Stratified MidCap Index
Syntax Stratified SmallCap ETF	. Syntax Stratified SmallCap Index

Each Fund's investment objective is to provide long-term total investment returns (capital gains plus income). To achieve the investment objective for Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF and Syntax Stratified SmallCap ETF, the Advisor will seek to track the performance of each Underlying Index, which are stratified-weight versions of the widely used S&P 500® Index, S&P MidCap 400® Index and S&P SmallCap 600® Index, respectively. In addition, the Funds may invest in cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds.

The Syntax Stratified U.S. Total Market ETF seeks to obtain capital growth that meets or exceeds the performance of the S&P Composite 1500® Index ("1500 Index") by investing in Syntax Stratified Weight ETFs (each, an "Underlying Fund" and collectively, the "Syntax Underlying Funds" or "Underlying Funds"), exchange traded funds ("ETFs") or underlying securities that provide Stratified Weight U.S. total equity market exposure. The targeted Underlying Funds and/or the securities will comprise the Syntax Stratified LargeCap ETF, the Syntax Stratified MidCap ETF, and the Syntax Stratified SmallCap ETF, or portfolios of securities that hold comparable securities in comparable classes in a Stratified Weight methodology.

The Syntax Stratified U.S. Total Market Hedged ETF seeks to obtain capital growth that meets or exceeds the performance of the 1500 Index over a full market cycle by investing in the Underlying Funds or underlying securities that provide Stratified WeightTM U.S. total equity market exposure to companies in the 1500 Index while seeking risk-managed growth via a defined risk hedging process. The Fund will also invest in index options for risk management purposes and to seek to generate additional returns. The strategy used to select the Fund's equity investments and its hedging strategy is called the "Stratified Defined Risk Strategy". In order to accomplish the Fund's hedging strategy, Swan Global Investments, LLC utilizes a put options hedging strategy to hedge some of the Fund's equity exposure. The put strategy is executed using mostly exchange-traded S&P 500 Index put options that have an inverse relationship to the S&P 500 Index. To seek to generate additional returns or hedge, the Options Sub-Adviser also buys and sells shorter-term (generally 1-3 month) put and call options on equity indices, and engages in various longer-term (12-24 month) spread option strategies.

Note 1 — Organization – (continued)

The Syntax Stratified Total Market II ETF seeks to obtain capital growth that exceeds the performance of the 1500 Index over a full market cycle by investing in ETFs or underlying securities that provide Stratified WeightTM U.S. total equity market exposure to companies in the 1500 Index.

Refer to the Additional Strategies Information section of each Fund's prospectus for more information on the methodology of the Syntax Indices.

Note 2 — Significant Accounting Policies

Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 946 *Financial Services – Investment Companies*. The accompanying financial statements of the Funds are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") and in accordance with ASC as set forth by the FASB. Each Fund maintains its financial records in U.S. dollars and follows the accrual basis of accounting.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets, liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses for the year. Actual results could differ from those estimates.

The following is a summary of significant accounting policies used by the Funds.

In-Kind Seeding

The seeding (capital required to fund initial creation units to commence trading) of the Syntax ETFs was provided by two different methods: cash delivered at closing and in-kind seeding. The Syntax Stratified U.S. Total Market ETF was seeded by cash only. All of the other Syntax ETFs were seeded by a combination of cash and in-kind seeding. The particulars of the in-kind seeding for each of the remaining Syntax ETFs are described below:

Syntax Stratified LargeCap ETF was seeded through the exchange of ETF Shares for the securities held by the Syntax 500 Series of Syntax Index Series LP on January 2, 2019, Syntax Stratified MidCap ETF was seeded through the exchange of ETF Shares for the securities held by the Syntax 400 Series of Syntax Index Series LP on January 16, 2020, Syntax Stratified SmallCap ETF was seeded through the exchange of ETF Shares for the securities held by affiliated funds managed by the Advisor on May 28, 2020, the Syntax Stratified U.S. Total Market Hedged ETF was seeded through the exchange of ETF shares for the securities held by affiliated funds managed by the Advisor and private accounts on June 15, 2021 and Syntax Stratified Total Market II ETF was seeded through the exchange of ETF shares for the securities held by affiliated funds managed by the Advisor and private accounts on June 14, 2022 (the "Transactions"). The Syntax Index Series LP was managed by the Advisor.

The Transactions were structured as tax-free exchanges of shares. The Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF and Syntax Stratified SmallCap ETF carried forward the historical cost basis of investments and cumulative unrealized gains and losses as reported by the respective affiliated funds managed by the Advisor prior to the Transactions to align ongoing financial reporting. Investment companies carry substantially all their assets at fair market value for periodic and ongoing reporting. The primary use of historical cost basis is to determine both realized and unrealized gains and losses.

Note 2 — Significant Accounting Policies – (continued)

The Transactions resulted in the following:

	Initial Market Value of Securities		
	acquired by Fund	Cost Basis	Unrealized Gain (Loss)
Syntax Stratified LargeCap ETF	\$33,554,457	\$35,543,619	(1,989,162)
Syntax Stratified MidCap ETF	2,785,553	2,336,742	448,811
Syntax Stratified SmallCap ETF	11,391,517	10,089,586	1,301,931

Net assets and other attributes contributed for Syntax Stratified U.S. Total Market Hedged ETF were \$4,064,100 in cash and securities at fair market of \$39,364,199 and unrealized appreciation of \$19,014,829, in exchange for 1,075,000 shares at a NAV of \$40.40. Net assets and other attributes contributed for Syntax Stratified Total Market II ETF were \$8,150,000 in cash and securities at fair market of \$3,888,326 and unrealized appreciation of \$1,363,061 in exchange for 325,000 shares at a NAV of \$37.04. The fair value of assets contributed for Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF became the new cost basis for financial reporting purposes.

Investment Valuation

The Funds value their investments at fair value. The following methodologies are used to determine the market value or fair value of investments. Equity investments (including preferred stocks and registered investment companies that are exchange-traded funds) traded on a recognized securities exchange for which market quotations are readily available are valued at the last sale price or official closing price, as applicable, on the primary market or exchange on which they trade. Equity investments traded on a recognized exchange for which there were no sales on that day are valued at the last published sale price or at fair value. Exchange traded purchased and written options shall be valued at the mean between the current bid and ask prices on the day of valuation.

Effective September 8, 2022, the Adviser has been designated as the Funds' valuation designee pursuant to Rule 2a-5 under the 1940 Act with responsibility for fair valuation subject to oversight by the Funds' Board of Trustees. Investments for which valuations or market quotations are not readily available or are deemed unreliable are valued at fair value using methods determined in good faith by or at the direction of the Board of Trustees ("Trustees") of the Fund in a manner that fairly reflects the security's value, or the amount that the Fund might reasonably expect to receive for the security upon its current sale in the ordinary course. Each such determination is based on a consideration of relevant factors, which are likely to vary from one pricing context to another. These factors may include, but are not limited to, the type of security, the existence of any contractual restrictions on the security's disposition, the price and extent of public trading in similar securities of the issuer or of comparable companies or entities, quotations or relevant information obtained from broker/dealers or other market participants, information obtained from the issuer, analysts, and/or the appropriate stock exchange (for exchange-traded securities), an analysis of the company's or entity's financial condition, and an evaluation of the forces that influence the issuer and the market(s) in which the security is purchased and sold.

Under GAAP for fair value measurements, a three-tier hierarchy to prioritize the assumptions, referred to as inputs, is used in valuation techniques to measure fair value. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

The three levels of the fair value hierarchy are as follows:

- Level 1 Quoted prices in active markets for identical investments
- Level 2 Other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

Note 2 — Significant Accounting Policies – (continued)

• Level 3 — Significant unobservable inputs (including a fund's own assumptions in determining the fair value of investments)

The following table summarizes the value of each Fund's investments within the fair value hierarchy as of December 31, 2023.

Description	Level 1	Level 2	Level 3	Total

^{*} As of December 31, 2023, level 3 common stocks held in Syntax Stratified SmallCapETF represented 0.0% of the Fund's net assets.

Refer to the Schedule of Investments for industry classifications.

Note 2 — Significant Accounting Policies – (continued)

Distributions

Funds declare and distribute dividends from net investment income to its holders of Shares ("Shareholders"), if any, annually. Capital gain distributions, if any, are generally declared and paid annually. Additional distributions may be paid by the Funds to avoid imposition of federal income and excise tax on any remaining undistributed net investment income and capital gains. The amount and character of income and gains to be distributed are determined in accordance with federal tax regulations which may differ from net investment income and realized gains recognized for GAAP purposes.

Cash

Cash consists of cash held at the Funds' custodian, State Street Bank and Trust Company.

Investment Transactions and Investment Income

Investment transactions for financial statement purposes are accounted for on a trade date basis. Realized gains and losses on investments sold are determined on the basis of identified cost. Dividend income, if any, is recorded on the ex-dividend date or, in the case of foreign securities, as soon as the Funds are informed of the ex-dividend dates, net of foreign taxes. Interest income, including accretion of discounts and amortization of premiums, is recorded on the accrual basis commencing on the settlement date.

Distributions received by the Funds may include a return of capital that is estimated by the Advisor. Such amounts are recorded as a reduction of the cost of investments or reclassified to capital gains. The Funds may invest in real estate investment trusts ("REITs") if they are part of the index. REITs determine the characterization of their income annually and may characterize a portion of their distributions as a return of capital or capital gain. The Funds' policy is to record all REIT distributions as dividend income initially and re-designate the prior calendar year's return of capital or capital gain distributions at year end.

Organizational and Offering costs

Syntax Advisors has agreed to pay all of the Funds' organizational and offering costs. The organizational and offering costs are not subject to repayment to Syntax Advisors by the Funds.

Federal Income Taxes

For U.S. federal income tax purposes, each Fund intends to qualify as a "regulated investment company" under Sub-chapter M of the Internal Revenue Code of 1986, as amended (a "RIC"), and intends to continue to qualify as a RIC. As a RIC, each Fund will generally not be subject to U.S. federal income tax for any taxable year on income, including net capital gains, that it distributes to its Shareholders, provided that it distributes on a timely basis at least 90% of its "investment company taxable income" determined prior to the deduction for dividends paid by the Funds (generally, its taxable income other than net capital gain) for such taxable year. In addition, provided that the Funds distribute substantially all of their ordinary income and capital gains during each calendar year, the Funds will not be subject to U.S. federal excise tax. Income and capital gain distributions are determined in accordance with tax regulations which may differ from GAAP. These book-tax differences are primarily due to differing treatments for in-kind transactions, losses deferred due to wash sales, corporate actions, distributions in excess of current earnings and capital loss carryover. In addition, Syntax Stratified U.S. Total Market Hedged ETF claimed a portion of the payments made to redeeming shareholders as a distribution for income tax purposes.

GAAP requires the evaluation of tax positions taken in the course of preparing the Funds' tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. For GAAP purposes, the Funds recognize the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by tax authorities.

Note 2 — Significant Accounting Policies – (continued)

Each Fund has reviewed its tax positions and has determined that no provision for income tax is required in the Fund's financial statements. Generally, the Funds' tax returns for the prior three fiscal years remain subject to examinations by the Funds' major tax jurisdictions, which include the United States of America, and the State of New York. The Funds recognize interest and penalties, if any, related to tax liabilities as income tax expense in the Statements of Operations. There were no such expenses for the year ended December 31, 2023.

No income tax returns are currently under examination. The Advisor has analyzed the relevant tax laws and regulations and their application to the Funds' facts and circumstances and does not believe there are any uncertain tax positions that require recognition of any tax liabilities. Any potential tax liability is also subject to ongoing interpretation of laws by taxing authorities. The tax treatment of each of the Fund's investments may change over time based on factors including, but not limited to, new tax laws, regulations and interpretations thereof.

During the year ended December 31, 2023, and the year or period ended December 31, 2022, the tax character of distributions paid were as follows:

	Year Ended December 31, 2023		Year or Period Ended December 31, 20			
	Distributions Paid from Ordinary Income	Distributions Paid from Long-Term Gain	Distributions Paid From Return of Capital	Distributions Paid from Ordinary Income	Distributions Paid from Long-Term Gain	Distributions Paid From Return of Capital
Syntax Stratified LargeCap ETF	\$1,685,545	\$ —	\$ —	\$1,615,742	\$ —	\$ —
Syntax Stratified MidCap ETF	119,767	_	_	98,761	_	_
Syntax Stratified SmallCap ETF	207,681	_	_	205,319	_	_
Syntax Stratified U.S. Total Market ETF	291,600	_	_	199,218	_	_
Syntax Stratified U.S. Total Market Hedged ETF	419,412	_	_	1,332,695	_	_
Syntax Stratified Total Market II ETF	126,201			142,712	4,218	_

Permanent book and tax differences, primarily attributed to book and tax basis of redemptions in-kind, taxable distributions in excess of income, and prior year adjustments to estimates resulted in reclassifications. During the year ended December 31, 2023, the following amounts were classified due to permanent differences between book and tax accounting:

		Distributable
	Paid in Capital	Earnings (Loss)
Syntax Stratified LargeCap ETF	\$4,641,241	(4,641,241)
Syntax Stratified MidCap ETF	203,242	(203,242)
Syntax Stratified SmallCap ETF	673,856	(673,856)
Syntax Stratified U.S. Total Market ETF	456,481	(456,481)
Syntax Stratified U.S. Total Market Hedged ETF	43,333	(43,333)
Syntax Stratified Total Market II ETF	445,150	(445,150)

Note 2 — Significant Accounting Policies – (continued)

At December 31, 2023, the components of distributable earnings (accumulated losses) on a tax basis were as follows:

	Undistrbuted Ordinary Income	Undistributed Long-Term Gain	Capital Loss Carryforward	Post-October Capital Loss Deferrals	Unrealized Appreciation (Depreciation)	Total
Syntax Stratified LargeCap ETF	\$ —	\$—	(5,000,313)	\$ —	\$8,474,441	\$3,474,128
Syntax Stratified MidCap ETF	_	_	(587,791)	_	1,413,020	825,229
Syntax Stratified SmallCap ETF	_		(2,126,102)		2,426,747	300,645
Syntax Stratified U.S. Total Market ETF	187	_	(17,924)	_	1,219,252	1,201,515
Syntax Stratified U.S. Total Market Hedged ETF	27	_	(2,436,911)	_	2,337,174	(99,710)
Syntax Stratified Total Market II ETF	84			826	919,609	920,519

The differences between components of distributable earnings (accumulated losses) on a tax basis and the amounts reflected in the Statements of Assets and Liabilities are primarily due to wash sales.

At December 31, 2023, the Funds had the following capital loss carryforwards that may be utilized to offset any net realized capital gains:

	Long-Term	Short-Term
Syntax Stratified LargeCap ETF	\$4,461,489	\$ 538,824
Syntax Stratified MidCap ETF	447,655	140,136
Syntax Stratified SmallCap ETF	724,601	1,401,501
Syntax Stratified U.S. Total Market ETF	16,092	1,832
Syntax Stratified U.S. Total Market Hedged ETF	597,141	1,839,770

At December 31, 2023, gross unrealized appreciation and gross unrealized depreciation of investment based on cost, including open derivative contracts, for federal income tax purposes were as follows:

	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Syntax Stratified LargeCap ETF	\$85,603,927	\$13,725,128	(5,250,687)	\$8,474,441
Syntax Stratified MidCap ETF	9,805,499	1,950,035	(537,015)	1,413,020
Syntax Stratified SmallCap ETF	15,420,611	3,697,946	(1,271,199)	2,426,747
Syntax Stratified U.S. Total Market ETF	16,782,639	1,246,841	(27,589)	1,219,252
Syntax Stratified U.S. Total Market Hedged ETF	33,067,994	2,589,892	(252,718)	2,337,174
Syntax Stratified Total Market II ETF	6,796,779	919,640	(31)	919,609

Note 3 — Derivative Financial Instruments

Syntax Stratified U.S. Total Market Hedged ETF invests in purchased and written options as part of its hedging strategy.

Purchased Options — Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statements of Assets and Liabilities at Investment in securities of unaffiliated issuers. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on

Note 3 — Derivative Financial Instruments – (continued)

investment valuations discussed above. As the purchaser of an index option, the Fund has the right to receive a cash payment equal to any depreciation in the value of the index below the exercise price of the option (in the case of a put) or equal to any appreciation in the value of the index over the exercise price of the option (in the case of a call) as of the valuation date of the option. If an option which the Fund had purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If the Fund exercises a put option on a security, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option on a security, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid. The risk associated with purchasing options is limited to the premium originally paid.

Written Options — Upon the writing of a call or a put option, the premium received by the Fund is included in the Statements of Assets and Liabilities at Written options, at value. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written, in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. When an index option is exercised, the Fund is required to deliver an amount of cash determined by the excess of the exercise price of the option over the value of the index (in the case of a put) or the excess of the value of the index over the exercise price of the option (in the case of a call) at contract termination. If a put option on a security is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as a writer of an option, may have no control over whether the underlying securities or other assets may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities or other assets underlying the written option. The Fund may also bear the risk of not being able to enter into a closing transaction if a liquid secondary market does not exist.

The following is a summary of the location and the Fund's fair values of derivative investments disclosed, if any, within the Statements of Assets and Liabilities, categorized by primary market risk exposure as of December 31, 2023.

Asset Derivatives		
Location	Equity Contracts	Total
Purchased options:		
Investments in securities of unaffiliated issuers	\$2,752,755	\$2,752,755
Total	\$2,752,755	\$2,752,755

The following is a summary of the location and the effect of derivative investments, if any, within the Statements of Operations, categorized by primary market risk exposure for the year ended December 31, 2023.

Realized Gain (Loss) on Derivative Instruments			
	Equity		
Location	Contracts	Total	
Purchased options:			
Net realized gain (loss) from transactions in investment securities	\$(2,160,048)	\$(2,160,048)	
Net realized gain (loss) from transactions in written options	\$ (101,781)	\$ (101,781)	
Total	\$(2,261,829)	\$(2,261,829)	

Note 3 — Derivative Financial Instruments – (continued)

Change in Unrealized Appreciation (Depreciation) on Derivative Instruments

Location	Equity Contracts	Total
Purchased options:		
Net change in unrealized appreciation (depreciation) on investment securities	\$136,359	\$136,359
Net change in unrealized appreciation (depreciation) on written options	\$ (36,069)	\$ (36,069)
Total	\$100,290	\$100,290

The following is a summary of the ending monthly average volume on derivative activity during the year ended December 31, 2023.

Options:

Average value of option contracts purchased	\$3,174,935
Average value of option contracts written	(355,242)

Note 4 — Investment Transactions

Purchases and sales of investments (including purchased options and excluding in-kind transactions and short term investments) for the year ended December 31, 2023, were as follows:

	Purchases	Sales
Syntax Stratified LargeCap ETF	\$22,378,122	\$22,028,329
Syntax Stratified MidCap ETF	4,878,131	4,673,585
Syntax Stratified SmallCap ETF	8,728,912	8,291,698
Syntax Stratified U.S. Total Market ETF	156,707	165,308
Syntax Stratified U.S. Total Market Hedged ETF	4,612,062	5,654,304
Syntax Stratified Total Market II ETF	75,615	77,963

For the year ended December 31, 2023, the following Funds had in-kind contributions and redemptions in the amounts as follows:

	In-kind Contributions	In-kind Redemptions
Syntax Stratified LargeCap ETF	\$9,973,646	\$23,441,757
Syntax Stratified MidCap ETF		902,572
Syntax Stratified SmallCap ETF		2,246,884
Syntax Stratified U.S. Total Market ETF	9,398,671	5,351,839
Syntax Stratified U.S. Total Market Hedged ETF		5,300,100
Syntax Stratified Total Market II ETF	2,099,154	3,237,108

Note 5 — Capital Share Transactions

Each Fund will issue or redeem capital shares to certain institutional investors (typically market makers or other broker dealers) on a continuous basis through the Distributor in large blocks of 25,000 capital shares ("Creation Units"). The capital shares are only redeemable in Creation Unit aggregations. Transactions in shares of each Fund are disclosed in detail on the Statements of Changes in Net Assets. Creation Unit transactions are typically conducted in exchange for the deposit or delivery of a designated portfolio of in-kind securities ("Deposit Securities") and/or cash constituting a substantial replication, or a representation, of the securities included in the Underlying Index.

Note 5 — Capital Share Transactions – (continued)

Investors purchasing and redeeming Creation Units may be charged a transaction fee to cover the transfer and other transactional costs it incurs to issue or redeem Creation Units. The standard transaction fee charge is \$1,250, \$1,000 and \$1,500 for Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF and Syntax Stratified SmallCap ETF, respectively. The standard transaction fee charge is \$50 for Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF.

The Adviser may charge an additional, variable fee (sometimes referred to as a "cash-in-lieu" fee) to the extent a Fund permits Authorized Participants to create or redeem Creation Units for cash, or otherwise substitute cash for any Deposit Security. Such cash-in-lieu fees are payable to a fund and are charged to defray the transaction cost to a fund of buying (or selling) Deposit Securities, to cover spreads and slippage costs and to protect existing shareholders. The cash-in-lieu fees will be negotiated between the Adviser and the Authorized Participant and may be different for any given transaction, Business Day or Authorized Participant; however, in no instance will such cash-in-lieu fees exceed 2% of the value of a Creation Unit. From time to time, the Adviser, in its sole discretion, may adjust a fund's cash-in-lieu fees or reimburse Authorized Participants for all or a portion of the creation or redemption transaction fees.

Note 6 — Fund Fees and Expenses

Investment Management Fees: Each Fund pays the Advisor monthly, in arrears, a unitary management fee based on a percentage of the Fund's average daily net assets that is subject to an Expense Limitation Agreement. The management fee rate for each fund is as follows:

	Annual Rate
Syntax Stratified LargeCap ETF	0.45%
Syntax Stratified MidCap ETF	0.45%
Syntax Stratified SmallCap ETF	0.45%
Syntax Stratified U.S. Total Market ETF	0.75%
Syntax Stratified U.S. Total Market Hedged ETF	1.00%
Syntax Stratified Total Market II ETF	0.75%

Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF may incur "Acquired Fund Fees and Expenses." Acquired Fund Fees and Expenses reflect each Fund's pro rata share of the fees and expenses incurred by investing in other investment companies, including ETFs. The impact of Acquired Fund Fees and Expenses are included in the total returns of the Fund unless they are waived. The Advisor to the Funds has contractually agreed to reimburse a portion of its management fees for the Fund in an amount equal to the Acquired Fund Fees and Expenses, if any, attributable to the Fund in other series of the Trust or, for Syntax Stratified U.S. Total Market Hedged ETF, funds advised or sub-advised by Vantage Consulting Group Inc., the equity sub-adviser, or Swan Global Investments, LLC, the options sub-adviser, through May 1, 2024 for Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF. The Advisor reimbursed management fees of \$48,227, \$107,398 and \$23,744 for acquired fund fees and expenses in affiliated funds for Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF, respectively. These amounts are included in Expense Waiver/Reimbursement in the Statements of Operations and are not subject to recoupment.

The Advisor provides investment advisory, supervisory and administration services under an investment management agreement. The Advisor has agreed to waive its fees and/or absorb expenses of the Funds to ensure that Total Annual Operating Expenses (excluding any (i) interest expense, (ii) taxes, (iii) acquired fund fees and expenses (only with respect to each of the Syntax Stratified LargeCap, MidCap and SmallCap ETFs), (iv) brokerage expenses and other expenses (such as stamp taxes) connected with the execution of portfolio transactions or in connection with creation and redemption transactions, (v) expenses associated with shareholder meetings, (vi) compensation and expenses of the Independent Trustees, (vii) compensation and expenses of the Trust's chief compliance officer and his or her staff, (viii) distribution fees

Note 6 — Fund Fees and Expenses – (continued)

and expenses paid by the Trust under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act, (ix) legal fees or expenses in connection with any arbitration, litigation or pending or threatened arbitration or litigation, including any settlements in connection therewith, and (x) extraordinary expenses of the Fund) ("Excluded Expenses") do not exceed the following expense limitations shown below.

In addition, the Adviser has agreed to waive its fees and/or absorb Excluded Expenses of each fund to ensure that Total Annual Operating Expenses do not exceed the following expense limitation:

	Expense Limit
Syntax Stratified LargeCap ETF	0.30%
Syntax Stratified MidCap ETF	0.35%
Syntax Stratified SmallCap ETF	0.40%
Syntax Stratified U.S. Total Market ETF	0.35%
Syntax Stratified U.S. Total Market Hedged ETF	0.65%
Syntax Stratified Total Market II ETF	0.35%

These arrangements cannot be terminated prior to one year from the effective date of the prospectus without the approval of the Board of Trustees. In connection with this arrangement, the Advisor has waived and reimbursed the following amounts in expenses for the year ended December 31, 2023 as noted below.

	Expenses Waived and Reimbursed
Syntax Stratified LargeCap ETF	\$143,465
Syntax Stratified MidCap ETF	10,576
Syntax Stratified SmallCap ETF	8,771
Syntax Stratified U.S. Total Market ETF	61,349
Syntax Stratified U.S. Total Market Hedged ETF	128,744
Syntax Stratified Total Market II ETF	30,097

Subject to approval by the Funds' Board of Trustees, any waiver and/or reimbursement under an expense limitation agreement entered into between the Advisor and the Trust is subject to repayment by a Fund within 36 months following the month in which fees are waived or reimbursed, if such repayment does not cause the Fund's expense ratio (after the repayment is taken into account) to exceed both: (i) the expense limit in place at the time such amounts were waived or reimbursed; and (ii) the Fund's current expense limit as noted above. At December 31, 2023, the waivers and reimbursements subject to repayment are as follows:

	2024	2025	2026
Syntax Stratified LargeCap ETF	\$120,877	\$149,044	\$143,465
Syntax Stratified MidCap ETF	9,028	9,684	10,576
Syntax Stratified SmallCap ETF	17,104	9,526	8,771
Syntax Stratified U.S. Total Market ETF	58,102	40,344	61,349
Syntax Stratified U.S. Total Market Hedged ETF	86,619	152,651	128,744
Syntax Stratified Total Market II ETF	_	27,622	30,097

Distributor, Distributor and Service Fees: Foreside Fund Services, LLC ("Distributor") is the Distributor of Fund shares. The Distributor will not distribute Fund shares in less than Creation Units and does not maintain a secondary market in Fund shares. The Distributor may enter into selected dealer agreements with other broker-dealers or other qualified financial institutions for the sale of Creation Units of Fund shares.

Note 6 — Fund Fees and Expenses – (continued)

Each Fund has a distribution and service plan ("Distribution Plan") pursuant to Rule 12b-1 under the 1940 Act, to which payments at an annual rate of up to 0.25% of the Fund's average daily net assets may be made for the sale and distribution of its Fund shares. No payments pursuant to the Distribution Plan will be made through at least the next twelve (12) months of operations. Additionally, the implementation of any such payments would be approved by the Board prior to implementation.

Vantage Consulting Group, Inc. ("Vantage" or the "Sub-Adviser") serves as the sub-adviser to the Funds. It performs both the day-to-day management of the Funds and places orders for the purchase and sale of individual securities for the Funds (equity portfolio only in the case of SHUS). Syntax Advisors compensates Vantage for its services to the Funds.

Swan Global Investments, LLC ("Swan") serves as the options sub-adviser to SHUS. It performs both the day-to-day management of the option strategy for SHUS, and places orders for the purchase and sale of options for SHUS. Syntax Advisors compensates Swan for its services to the Funds.

An interested Trustee and officers of the Trust are affiliated with the Advisor and receive no compensation from the Trust for serving as officers and/or Trustee.

Note 7 — Indemnifications

In the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties which provide general indemnifications. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience and knowledge of management, the Funds expect the risk of loss to be remote.

Note 8 — Risks

As with all investments, there are certain risks of investing in each Fund. Fund Shares will change in value, and you could lose money by investing in the Funds.

Market Risk: Overall securities market risks will affect the value of individual instruments in which the Funds invests, and the market price of a security may fluctuate, sometimes rapidly and unpredictably. U.S. securities markets may additionally be impacted by negative external and or direct and indirect economic factors such as global trade policies, economic growth and market conditions, interest rates, war, terrorism, natural and environmental disasters, public health emergencies and political events. The adverse impact of any one or more of these events on the market value of fund investments could be significant and cause losses.

Market Disruption Risk: Geopolitical and other events, including but not limited to war, terrorism, economic uncertainty, trade disputes and public health crises have led, and in the future may lead, to disruptions in the U.S. and world economies and markets, which in turn may increase financial market volatility and have significant adverse direct or indirect effects on the Fund and its investments. Market disruptions could cause the Fund to lose money and encounter operational difficulties. In particular, the global COVID-19 pandemic has had, and is expected to continue to have, a severely adverse impact on the economies of many nations, individual companies and the market in general. The ongoing effects, duration and costs of the COVID-19 pandemic are impossible to predict, and the circumstances surrounding the COVID-19 pandemic will continue to evolve, including the risk of future increased rates of infection due to low vaccination rates and/or the lack of effectiveness of current vaccines against new variants. On February 24, 2022, Russia launched an invasion of Ukraine which has resulted in increased volatility in various financial markets and across various sectors. The U.S. and other countries, along with certain international organizations, have imposed economic sanctions on Russia and certain Russian individuals, banking entities and corporations as a response to the invasion. The extent and duration of the military action, resulting sanctions, future market disruptions in the region and potential negative impact on other regional and global economic markets of the world are impossible to predict. Such major events have caused temporary market closures, supply chain disruptions, extreme volatility, severe losses, reduced liquidity and increased trading costs. Further, such events may have an impact on

Note 8 — Risks – (continued)

the Fund and its investments and could impact the Fund's ability to purchase or sell securities or cause elevated tracking error and increased premiums or discounts to the Fund's NAV.

Strategy Risk: The performance of a Syntax stratified-weight version of a major benchmark index may vary significantly from its capitalization-weighted or equal-weighted counterpart due to their differing weighting methodologies. The Syntax indices diversify by adjusting stock weights every quarter to target sector weights grouped by related business risks. Neither a capitalization-weighted benchmark index nor an equally weighted benchmark index with the same constituents has target sector weighting rules; individual security weights vary according to their weighted average market value or the total number of constituents, respectively. As a result, a benchmark index may, at any point in time, hold larger proportions of outperforming stocks and/or sectors. Conversely, a benchmark index may hold smaller proportions of underperforming stocks and/or sectors. Accordingly, a benchmark index may significantly outperform a stratified-weight version of the same index. There is no assurance that the performance of a fund tracking a Syntax stratified-weight benchmark index will be positive, avoid a loss of capital, or meet or exceed that of either a fund tracking a similarly constituted capitalization-weighted or equally weighted benchmark index over any period of time.

Equity Securities Risk: The value of equity securities may increase or decrease as a result of market fluctuations, changes in interest rates and perceived trends in stock prices.

Large-Capitalization Securities Risk: Returns on investments in securities of large companies could trail the returns on investments in securities of smaller and mid-sized companies. Larger companies may be unable to respond as quickly as smaller and mid-sized companies to competitive challenges or to changes in business, product, financial, or market conditions. Larger companies may not be able to maintain growth at the high rates that may be achieved by well-managed smaller and mid-sized companies. Under certain market conditions the capitalization of a large-size company could decline to the extent that it exhibits the characteristics of a mid-capitalization company.

Small-And Mid-Capitalization Securities Risk: Investing in securities of small and mid-sized companies may involve greater volatility than investing in larger and more established companies because small and mid-sized companies (i) can be subject to more abrupt or erratic share price changes than larger, more established companies, (ii) are more vulnerable to adverse business and economic developments, and (iii) are more thinly traded and less liquid relative to those of larger companies.

Passive Strategy/Index Risk: Each Fund may invest in Syntax Underlying Funds or securities that are managed with a passive investment strategy, attempting to track the performance of an unmanaged index of securities. This differs from an actively-managed fund, which typically seeks to outperform a benchmark index. Because the Syntax Underlying Funds or securities are designed to track the performance of an index, securities may be purchased, retained or sold at times when a more actively managed fund would not do so. As a result, the Fund may hold constituent securities of the Index regardless of the current or projected performance of a specific security or a particular industry or market sector. Maintaining investments in securities regardless of market conditions or the performance of individual securities could cause the Syntax Underlying Fund's or securities' return to be lower than if the Fund employed an active strategy. There is no guarantee that the Syntax Underlying Fund's or securities' investment results will have a high degree of correlation to those of their respective benchmark or that the Fund will achieve its investment objective.

Market Trading Risk: Each Fund faces numerous market trading risks, including the potential lack of an active market for Fund Shares, losses from trading in secondary markets, periods of high volatility and disruption in the creation/redemption process of each Fund. Any of these factors, among others, may lead to the Fund Shares trading at a premium or discount to NAV. Accordingly, investors may pay more than NAV when purchasing Shares or receive less than NAV when selling Shares. Such divergence is likely to be greater under stressed market conditions.

Note 8 — Risks – (continued)

Options Risk: Purchased put options may expire worthless and may have imperfect correlation to the value of the Syntax Stratified U.S. Total Market Hedged ETF's sector-based investments. Written call and put options may limit the Fund's participation in equity market gains and may amplify losses in market declines. The Fund's losses are potentially large in a written put or call transaction. If unhedged, written calls expose the Fund to potentially unlimited losses.

Options Based Risk: Syntax Stratified U.S. Total Market Hedged ETF's purchase of exchange-traded put options based upon the S&P 500 Index to hedge against downward movements in the Underlying Funds or Securities creates the risk that the hedge may not be effective because the Underlying Funds or Securities contain more constituents and at different weightings than the S&P 500 Index. At times, the performance of the Underlying Funds or Securities can and will differ from the S&P 500 Index upon which the options are based. The implementation of the Defined Risk Strategy also will involve additional purchases and sales of options based on indices other than the S&P 500, which also could create options basis risk.

Derivatives Risk: Syntax Stratified U.S. Total Market Hedged ETF invests in derivatives. Derivatives are financial instruments that derive their performance from an underlying reference asset, such as an index. The return on a derivative instrument may not correlate with the return of its underlying reference asset. Derivatives are subject to a number of risks described in the Fund's Prospectus, such as market risk and issuer-specific risk. Derivatives can be volatile and may be less liquid than other securities. As a result, the value of an investment in the Fund or the Syntax Underlying Funds may change quickly and without warning and you may lose money.

Please see the Funds' prospectus for a complete discussion of these and other risks.

Note 9 — Subsequent Events

Pursuant to a supplement filed on February 29, 2024, an Agreement and Plan of Reorganization was approved by the Syntax ETF Trust board and will be subject to approval by the Syntax Fund's shareholders via a proxy vote. Other than that, there are no subsequent events requiring recognition or disclosure through the date of issuance of the financial statements.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF, Syntax Stratified SmallCap ETF, Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF, and Syntax Stratified Total Market II ETF and Board of Trustees of Syntax ETF Trust

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Syntax ETF Trust comprising the funds listed below (the "Funds") as of December 31, 2023, the related statements of operations, the statements of changes in net assets, the related notes, and the financial highlights for each of the periods indicated below (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of December 31, 2023, the results of their operations, the changes in net assets, and the financial highlights for each of the periods indicated below in conformity with accounting principles generally accepted in the United States of America.

Fund Name	Statements of Operations	Statements of Changes in Net Assets	Financial Highlights
Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF, Syntax Stratified SmallCap ETF	For the year ended December 31, 2023	For the years ended December 31, 2023 and December 31, 2022	For the years ended December 31, 2023, December 31, 2022 and December 31, 2021
Syntax Stratified U.S. Total Market ETF	For the year ended December 31, 2023	For the years ended December 31, 2023 and December 31, 2022	For the years ended December 31, 2023, December 31, 2022 and for the period from March 18, 2021 (commencement of operations) through December 31, 2021
Syntax Stratified U.S. Total Market Hedged ETF	For the year ended December 31, 2023	For the years ended December 31, 2023 and December 31, 2022	For the years ended December 31, 2023, December 31, 2022 and for the period from June 15, 2021 (commencement of operations) through December 31, 2021
Syntax Stratified Total Market II ETF	For the year ended December 31, 2023	For the year ended December 31, 2023 and for the period from June 14, 2022 (commencement of operations) through December 31, 2022	For the year ended December 31, 2023 and for the period from June 14, 2022 (commencement of operations) through December 31, 2022

The Funds' financial highlights for the years or periods ended December 31, 2020 and prior, were audited by other auditors whose report dated February 24, 2021, expressed an unqualified opinion on those financial highlights.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2023, by correspondence with the custodian and brokers. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the Funds' auditor since 2021.

February 29, 2024

Syntax ETF Trust Other Information December 31, 2023 (Unaudited)

Federal Tax Information (Unaudited)

The Form 1099-DIV you received in February 2024 showed the tax status of all distributions paid to your account in calendar year 2023. Shareholders are advised to consult their own tax adviser with respect to the tax consequences of their investment in the Fund. As required by the Internal Revenue Code and/or regulations, shareholders must be notified regarding the status of qualified dividend income for individuals and the dividends received deduction for corporations.

Qualified Dividend Income: For the fiscal year ended December 31, 2023, Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF, Syntax Stratified SmallCap ETF, Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedged ETF and Syntax Stratified Total Market II ETF, designate approximately \$1,874,522, \$128,180, \$237,050, \$297,992, \$552,739 and \$127,731, respectively, or up to the maximum amount of such dividends allowable pursuant to the Internal Revenue Code, as qualified dividend income eligible for a tax rate not greater than 20%.

Dividends Received Deduction: Corporate shareholders are generally entitled to take the dividends received deduction on the portion of each Fund's dividend distribution that qualifies under tax law. Of the fiscal 2023 ordinary income dividends for Syntax Stratified LargeCap ETF, Syntax Stratified MidCap ETF, Syntax Stratified SmallCap ETF, Syntax Stratified U.S. Total Market ETF, Syntax Stratified U.S. Total Market Hedge ETF and Syntax Stratified Total Market II ETF, 100.00%, 100.00%, 100.00%, 100.00%, 100.00%, and 100.00%, respectively, qualify for the corporate dividends received deduction.

Expense Example

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including brokerage commissions on purchases and sales of Fund shares and (2) ongoing costs, including advisory fees and to the extent applicable, distribution (12b-1) and/or service fees; and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. It is based on an investment of \$1,000 made at the beginning of the period shown and held for the entire period from July 01, 2023 to December 31, 2023.

The table below illustrates your Fund's cost in two ways:

Based on actual fund return — This section helps you to estimate the actual expenses that you paid over the period. The "Ending Account Value" shown is derived from each Fund's actual return, and the third column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. You may use the information here, together with the amount you invested, to estimate the expenses that you paid over the period. To do so, simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number given for the Fund under the heading "Expenses Paid During Period".

Based on hypothetical 5% return — This section is intended to help you compare your Fund's costs with those of other mutual funds. It assumes that the Funds had a yearly return of 5% before expenses, but that the expense ratio is unchanged. In this case, because the return used is not the Fund's actual return, the results do not apply to your investment. The example is useful in making comparisons because the SEC requires all mutual funds to calculate expenses based on a 5% return. You can assess your Fund's costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as brokerage commissions on purchases and sales of Fund shares. Therefore, the hypothetical 5% return section of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

		Act	ual	Hypothetical (a return before	O
